Connect to SAMBA Network Share on OS X MAC

* Please ensure that your Mac is connected via the Ethernet cable (yellow cable). If you are using Wi-Fi, please connect to the VPN (instructions are on Service Now).

*If you have a new IT account and/or have never logged into a Windows PC before, please login and logout. This process will create your personal SAMBA share on the network.

1. From the Desktop, click on the following: ‘Go’ -> ‘Connect to Server…’

2. Type the following into the Server Address bar: `smb://samba0.city.ac.uk/homes` followed by the ‘Connect’ button

3. You will be asked to enter a username and password. Please ensure that you enter your City University UserID and Password. Also ensure that you check the ‘Remember this password in my keychain’ followed by the Connect button.
4. Back from the Desktop, Click on ‘Finder’ then ‘Preferences…’

5. Check the option next to ‘Connected servers’. This will show a Desktop Icon for the SAMBA drive you have just connected to.
